become a **MENTOR** with **ASE**

Seeking Mentor Partners

Saturday Academy's Career Pathway Exploration Department is seeking Mentors for our **Apprenticeships in Science and Engineering Program** for 9-12 grade students.

Nationally Recognized Program

This nationally recognized program ensures high school students across Oregon and SW Washington have the opportunity to learn alongside working professionals in a wide range of STEAM-fueled industries!

Spark Curiosity and Fuel Passion

Support the next generation innovator by ensuring access to supportive real-world experiences that deepen identity, connect community, and broaden global awareness.

Nuts N' Bolts

1. Summer Internship Experience running mid-June through mid-August
2. Offered on a part-time or full-time basis tailored around the mentor's needs
3. Host Sites offset the cost of the program on a Sliding Scale from \$0 - \$3,600
4. Students earn a Learning Stipend paid for by Saturday Academy
5. We celebrate a diverse array of pathways as students make connections in STEAM careers
